

Growing Up Duck

Have you ever asked "How do eggs turn into baby chicks?" or "Do my scrambled eggs have a baby bird inside of them?" If yes, then come to the farm for a special class where we will learn the answers to those questions and more while we care for baby ducklings and observe duck eggs only days away from hatching.

Date: March 10th, 2010

Time: 9:30 a.m. – 12:00 p.m.

Cost: \$5.00 per participant

Who: Home school students
(Kindergarten through 2nd Grade)

Rutledge-Wilson Farm will also offer a more advanced "Growing up Duck" class for older students. Students in this class will learn more about embryology (the origin, growth, and development of an embryo) as we learn how chicks & ducks develop through experiments, hands-on experiences, & real observations of ducklings & duckling eggs as they grow in our classroom.

Date: March 11th, 2010

Time: 9:30 a.m. – 12:00 p.m.

Cost: \$5.00 per participant

Who: Home school students
(3rd through 6th Grade)

Pre-registration is required for both programs. To register, please call 837-5945. Registrations for these classes will not be accepted after March 5th, 2010.
