

GEOCACHING – LETTER BOXING – MEDALLION **POLICY GUIDELINES**

The Springfield – Greene County Park Board permits Geocaching in keeping with its mission “...to provide the highest quality of leisure opportunities, to offer programs for relaxation as well as stimulation, and to encourage personal and community enrichment for the citizens of Springfield and Greene County, Missouri.

For purposes of this policy and the permit, we will be using the following definitions:

CACHE – A hidden clear container filled with a logbook, pen/pencil, and possibly positive trinkets; or, a Virtual Cache (see definition).

DATUM – A point or line used as a basis for calculating and measuring.

GEOCACHING – Geocaching is an adventure game for users of GPS (Global Positioning Systems). The basic idea is to have individuals, groups, and/or organizations place caches and share the locations of these caches on the Internet. GPS users can then use the location coordinates to find the caches. Once found, the Geocacher records their find on www.geocache.com.

LETTER BOXING – A historical non-GPS form of caching utilizing:

1. Geography, history, and nature as clues.
2. Map and compass readings as clues and directions.

MULTI-CACHE – Multiple cache containers are located from information received from the previous container.

OFFSET CACHE – Coordinates will take the Geocacher to a location to find a number stamped and/or written in or on an item at the location or once at the location, the Geocacher will continue the search according to instructions on the initial information received from www.geocache.com.

VIRTUAL CACHE – A virtual cache means there is no cache container. It’s the location that is the cache itself. Nothing is normally traded, except photos and experiences.

GUIDELINES:

1. Any individual, group, or organization wishing to place a cache on a Springfield – Greene County Park Board site is required to complete and have approved, an Official Geocaching Placement Permit.
