"I love our parks, because I think it’s important to take a break from our everyday stresses and connect with nature in some way. It just makes me happy to be outside, and the parks here are beautiful. It’s a great way to just make you feel better. It really improves your mood and is good for your mental health.

My favorite parks are Lost Hill and Ritter Springs. To me, they are just more natural type settings, so when I want a little peace and quiet time to just take a stroll through a forest they are my go-to places for sure!

Life can be so overwhelming, especially lately, so make sure to take time to get away from everything and enjoy one of many amazing parks we have here. Whether it’s to just read a book, take a walk or just take a break from life, go!"

A Message from the Director:
Parks During a Pandemic

Our community’s parks, trails and golf courses are more popular than ever as folks take a break, get outdoors and grab some exercise while still maintaining safe distances as necessary. All of us here at the Park Board have been extremely proud to be able to keep our parks and outdoor spaces open throughout the majority of this past year in spite of COVID-19 challenges, providing much-needed exercise, relief and a sense of normalcy for our users.

While most of our indoor Parks facilities are now open, we are doing some things differently in the interest of health and safety. We’re sanitizing and cleaning constantly. We’re limiting capacity and crowds. Many programs and activities have been modified to keep patrons safe.

The Park Board, like the rest of our community, is eager to return to normal. But we’re not there yet. Programs intended for higher risk populations as well as large community gatherings and events may not be restored for some time. Staying safe continues to be our top priority, and if we can’t find a way to conduct a program with full assurances of safety, then we’re not ready to bring it back. We’re very proud to say that all of our decisions about when and how to reopen have been made in full partnership with the Springfield-Greene County Health Department.

We ask that you to continue to help protect yourself and others when visiting our parks and facilities, including:

• Wear a face covering indoors and in crowded outdoor areas — anywhere you can’t keep a six-foot distance from others. Face coverings are not required while you are exercising, playing sports or swimming, but they are required in common areas such as lobbies, restrooms and changing rooms.

• Temperature checks are required before entering Chesterfield, Dan Kinney and Doling family centers, Cooper Tennis Complex, other Parks facilities and with many SPARC programs. Anyone with a temperature of 100.4 or higher will not be admitted and may not re-enter the facility for 24 hours.

• Keep a minimum distance of 6 feet at all times between yourself and others.

• Wash your hands often, including before and after visiting our parks and facilities.

• Avoid touching your face. Cover your coughs or sneezes.

• Please stay home if you are feeling any symptoms of illness.

Above all else, please be kind and compassionate to others. We truly want all to have an enjoyable and rewarding experience at our facilities, particularly during these challenging times. And don’t forget to check out our popular “Parks Pick Me Up” features at ParkBoard.org/ParksPickMeUp

Our departmental staff and members of the Park Board appreciate your continued support of our community’s park system. Stay healthy and stay safe!

- Bob Belote
Director of Parks, Springfield-Greene County Park Board

Head outside to explore the newest section of trail, which filled a key gap in our trail system!

The Fulbright Spring Greenway is now seven miles long. It begins at Ritter Springs Park and meanders along the South Dry Sac River to Truman School-Park. You’ll cross the river several times – including on a scenic bridge – while passing through the David C. Murray Park and Trailhead, the former Fulbright Landfill and Lost Hill Park.

This trail leads you through wooded hillsides, pastureland and river bottom near several caves. You’ll see a mix of native prairie grasses and wildflowers, as well as a variety of wetland and woodland trees and shrubs such as oak, American Sycamore, sassafras and willows. This corridor serves as habitat for a range of wildlife including snakes, turtles, deer, woodchucks, wild turkeys, hawks and bald eagles and many species of songbirds.

Throughout the corridor, you’ll also see interpretive and wayfinding kiosks that highlight unique natural, cultural and historical aspects of the area. Take time to stop and learn more about the area – you’re sure to learn something new. You’ll also spy two delightful public art installations, including a colorful new mural.
